

COMMISSION INTERNATIONALE
DES GRANDS BARRAGES
INTERNATIONAL COMMISSION
ON LARGE DAMS

Icold Committees - Comités CIGB
Technical Committee LE
LEVEES

Agenda for the workshop

28 May 2022

Marseille ICOLD Congress

The world of levees and its significance for the work of ICOLD Overview of two bulletins prepared by ICOLD Technical Committee LE

10:30-12:30 (French time) - CONFERENCE ROOM EUTHYMÈNES (1st floor)

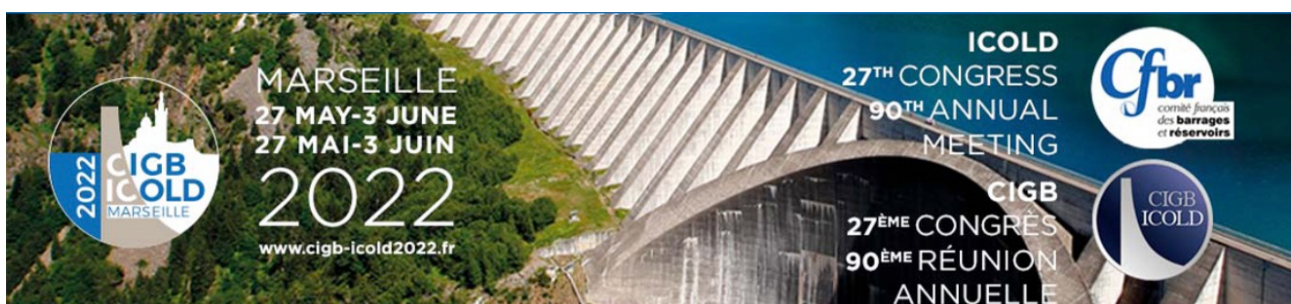

NB: the Congress has a tight schedule and additional meetings are planned on the same day. The workshop will have to start and end on time. Thank you for your comprehension.

The ICOLD TC on Levees has worked these past years on two bulletins that aim to become the foundation of all future work on levees in ICOLD:

- Levees and flood defences across the world - Characteristics, Risks and Governance
- Comparison of dams and levees - Similarities, differences and recommendations

The first one is presented for approval at the General Assembly of ICOLD during this year's ICOLD meeting. The workshop will present its content. The participants will be able to discuss on future actions in relation to this bulletin and – although this would require a prior reading of the bulletin – to provide comments on the bulletin. The feedback of the workshop will be considered when preparing further actions, including the preparation of the final Bulletin version, for which comments and feedback from the General Assembly will also be considered. The draft bulletin can be downloaded from the ICOLD web site in the member section, Circular 1995 (https://www.icold-cigb.org/GB/members_section/circular_letters.asp)

The second one, soon to be finalized, will be presented for approval at the General Assembly of ICOLD during next year's ICOLD meeting. The workshop will briefly present this bulletin's content and purpose, as well as the planned process for its completion.

10h30-10h40	Welcome - Objectives of the workshop – Practicalities - Appointment of a session secretary <i>Rémy Tourment (chairman) and Elena Sossenkina (vice-chair)</i>
10h40-11h50	Bulletin on "Levees and flood defences across the world - Characteristics, Risks and Governance" Presentation of the bulletin Feedback from the participants <i>Marcel Bottema and Robert Slomp</i>
11h50-12h20	Bulletin on "Comparison of dams and levees - Similarities, differences and recommendations" Presentation <i>Jonathan Simm and Rémy Tourment</i>
12h20-12h30	General comments from the audience (if enough time) Conclusion and messages <i>Rémy Tourment and Elena Sossenkina</i>

Alternatively, it is possible to join online using the following link:

<https://us06web.zoom.us/j/83162188052?pwd=eXJKMENWdnVtWElrWDUxekI3NTVBZz09>

TC members joining remotely are asked to add "TC" in front of their connection name so we can make the distinction between members and guests
